

THE 
AWNING CO

 **MADE IN BRITAIN**

CAFE CUBES

Outdoor pods for the hospitality sector.

Discover our latest innovation.

Designed and manufactured in Britain the **Cafe Cube** is a 2.8m² fully enclosed aluminium framed structure with an attractive UV & weatherproof sheeting. It fully complies with all COVID restrictions and it comfortably seats 6 to 8 people. It is the ideal solution for all pubs, bars, restaurants and hotels to offer sheltered outdoor space in any weather all year round. Available for business finance from as little as **£100 per month + VAT** (subject to approval) allows instant return on investment while becoming a desired go to location.

A durable and safe structure.

The three sides can all be opened halfway for a superb alfresco dining experience that can be quickly zipped up again when the inevitable British weather brings rain. Simply adapt the layout as well to give the cube a different purpose such as a mini shop, smoker's area or café serving through an open window making it an ideal investment for any recreational venue. With the installation of a heating system, **these pods can be used all year round.**

Easy installation.

The Cafe Cubes are **easy to assemble**, while still being strong enough to provide a very sturdy structure. No need to worry about having to take it down in winter, due to its tough, abrasion-resistant fabric and design, the frame won't rust and even stays unaffected by UV rays. There are numerous seating options, formations, and with a few additional personal touches, you'll **transform your outdoor area into a stunning picture-perfect space that generates a real buzz.**

Business finance from **£100 per month**
+ **VAT** (subject to approval) or get in

Available in two different weatherproof options:

Heavy duty PVC

Luxury Acrylic

**The construction of the frame is based on the balance
of durability and versatility. The 2.8m x 2.8m square
aluminium frame is:**

Incredibly strong
and sturdy, without
the need for a bulky
frame.

Lighter than many
other materials,
so easier to
assemble.

Unaffected
by UV rays
and will not
rust or rot.

Any season. Any event.

**Create a buzz with
exclusive dining pods.**

**Enjoy a night out in a
private booth.**

**Safe and
secure dining.**

**Set up your own
outdoor shop.**

Why choose The Awning Company?

Here at The Awning Company, all of our products are made in our factories in Bolton, Lancashire, to ensure we have full control over the production process. With over thirty years of experience in industry-leading awning and tipi designs we provide our customers with a unique product range offering designs to impress and to last. We also have a dedicated after sales team to cover any issues if they come along.
